SUBSCRIPTION \$2.00 PER YEAR—ALWAYS IN ADVANCE BAY ST. LOUIS, MISS., FRIDAY, DECEMBER 5, 1947 VOL. 56 — No. 49

Observations... From Around Town

(BY JAY WHOZIT)

What a joke—the City is having 100 copies of Ordinance 12 of the City of Bay St. Louis printed—this is the ordinance which sets up fire limits in the City and provides for the construction of fire proof buildings within the beach area—may we ask what will the copies be used for—perhaps for the enlightenment of the Commissioner of Public Utilities—apparently he does not know what the ordinance contains—we see frame buildings being constructed on the Beach—maybe it is a mirage—it may be well for the merchants of Bay St. Louis to look about and see the amount of business that is going out of town—the money order business at the Bay St. Louis Postoffice during the past month exceeded \$36,000.00—during the month of November 1946 it was \$22,000.00—an increase of \$14,000.00 over the past year during the month of November—this money is going out of town for purchases, mostly—and may we suggest to our people to give your local merchants a break—see if they have what you want and if so buy from them—Let's keep the profit at home... Yes, sir, folks, Pasadena has its Rose Bowl; New Orleans, its Sugar Bowl; Miami its Orange Bowl and on down the line, but none of them have anything on us here in Bay St. Louis, because we have the Fleas and Flies of Stanislaus, those midget footballers, from whose ranks have sprung famous athletes whose names have made the headlines of sport pages from the Atlantic to the Pacific and whose athletic prowess has been broadcast over every radio network of the nation... yes, folks, ours is the "one, the only, the original Flea and Fly Football Classic" and the game this year will be played this Sunday, December 7th, and the proceeds as usual will be used for the benefit of Brother Peter's Christmas Tree, an annual event for the poor and underprivileged children of Bay St. Louis, need any more be said? Mr. and Mrs. Roger E. Boh, their son, Bobby, and their twin daughters, among the 102,000 fans who witnessed the Army-Navy football game at Philadelphia, last Saturday afternoon... thanks, Mr. Mayor, we see you had your men cleaning the beach side of Front Street this week, it really needed it, and as the old saying goes, "better late than never"... already there is talk of the annual Carnival Ball, and a meeting is to be called for some time next week of the men and women of the town who are interested, to formulate plans for this forthcoming event... the Little Theater's last presentation for 1947 takes place Thursday, Friday and Saturday nights of this week and is called "Minstrel Follies of 1947" and was written and produced by Mr. John Bell... Bay St. Louis' two banks mailed out several hundred Christmas Savings Checks to their Christmas Club members last week... this puts quite a bit of ready cash into circulation and our people should do as much of their Christmas shopping here at home as is possible in order to help our merchants, who in turn will be able to help the shoppers by giving them better selection at better prices... the time is fast approaching for the closing of operations of the Red Cross Disaster Office at 131 Carroll Avenue, Mr. Charles B. Coffer and his staff of capable assistants have done a splendid work throughout the County and are to be congratulated for their untiring efforts in behalf of the storm sufferers... Ortte Theater announces that its annual Christmas Tree celebration will be held on December 19th this year... Santa Claus will make his appearance at Kern's 5 & 10 Store on Saturday afternoon, December 6th from 3:30 to 5, and every weekday afternoon until December 20th, so be sure, kids, to be there when Santa arrives... Postmaster Leo Ford asks that the public do their Christmas mailing early, in order to insure prompt delivery of their cards, packages, and other mail.

COUNTY TAX LEVY REDUCED

Sheriff's Office Prepared to Collect Taxes

The Personal assessment and the homestead exemption rolls for Hancock County for the year 1947 have been delivered to the Sheriff and Tax Collector and this office is now ready to collect taxes.

The Board of Supervisors at its October meeting fixed the tax levy for the fiscal year of 1947-1948 at 43.50 mills per dollar of assessed value.

The State levy for the year 1947-1948 is two mills, making a total of 45.50 mills.

The exempt levy under the homestead act is 20 mills, making a total of 25.50 mills to be paid by the taxpayer where the homestead exemption is granted. The levy of 45.50 mills is within the municipalities of Waveland and Bay St. Louis. Outside of the municipal separate school districts the Countywide levy will be 55.50 mills. The additional ten mills being for the County School Fund. This levy however is exempt, and those receiving the homestead exemption will only have to pay on a levy of 25.50 mills.

This shows a reduction of 1 mill in the total County levy from 1946, and a total reduction of 3 1/2 mills where the property is exempt.

The tax levy for school purposes in the consolidated School Districts must be added to the County wide levy. This is also exempt under the Homestead act.

A great many seem to think that the paying of our taxes completes their duty as citizens but they still owe an obligation to their fellow man.

"How many of you ask yourselves the question 'Am I a good Rotarian or Am I a good Citizen?'" said the speaker. If you can answer these in the affirmative then you are conscious of the so-called Common Man and are doing something about it.

A Boy Defined

A boy is a person who is going to carry on what you have started. He is going to sit where you are sitting, and when you are gone, attending to those things which you thing are so important.

You can adopt all the policies you please, but how long they will be carried out depends on him.

All your work is for him, and will be judged, praised, or condemned by him.

Your reputation and your future are in his hands.

He will take over your schools and your universities, your churches and your prisons, your charities and your corporations.

He will assume control of your cities, states, and nations.

Even if you make leagues and treaties, he is the one who will enforce them.

The fate of nations and humanity is in his hands.

So it might be well to pay some attention to him... the boy.

—By Betty Peckham.

AMERICAN RED CROSS DISASTER RELIEF

Unusual activity has been evident at the American Red Cross Disaster Office in Bay St. Louis as the time approaches for closing the operation. Caseworkers are making special home visits to secure last minute information so that their cases can be presented to the local Advisory Committee. At the same time a team of Disbursing Officers are busy making it possible for families to secure the items which have already been awarded them. Likewise arrangements are being made to return borrowed property and pay all outstanding bills of the operation.

When the Disaster Office at 131 Carroll Avenue closes on December 15th, all inquiries should be addressed to the Hancock County Chapter of the Red Cross located in the Court House.

ORTTE THEATER
PRESENTS
SUNDAY - MONDAY
"MERTON OF THE
MOVIES"

Starring Red Skelton and
Virginia O'Brien

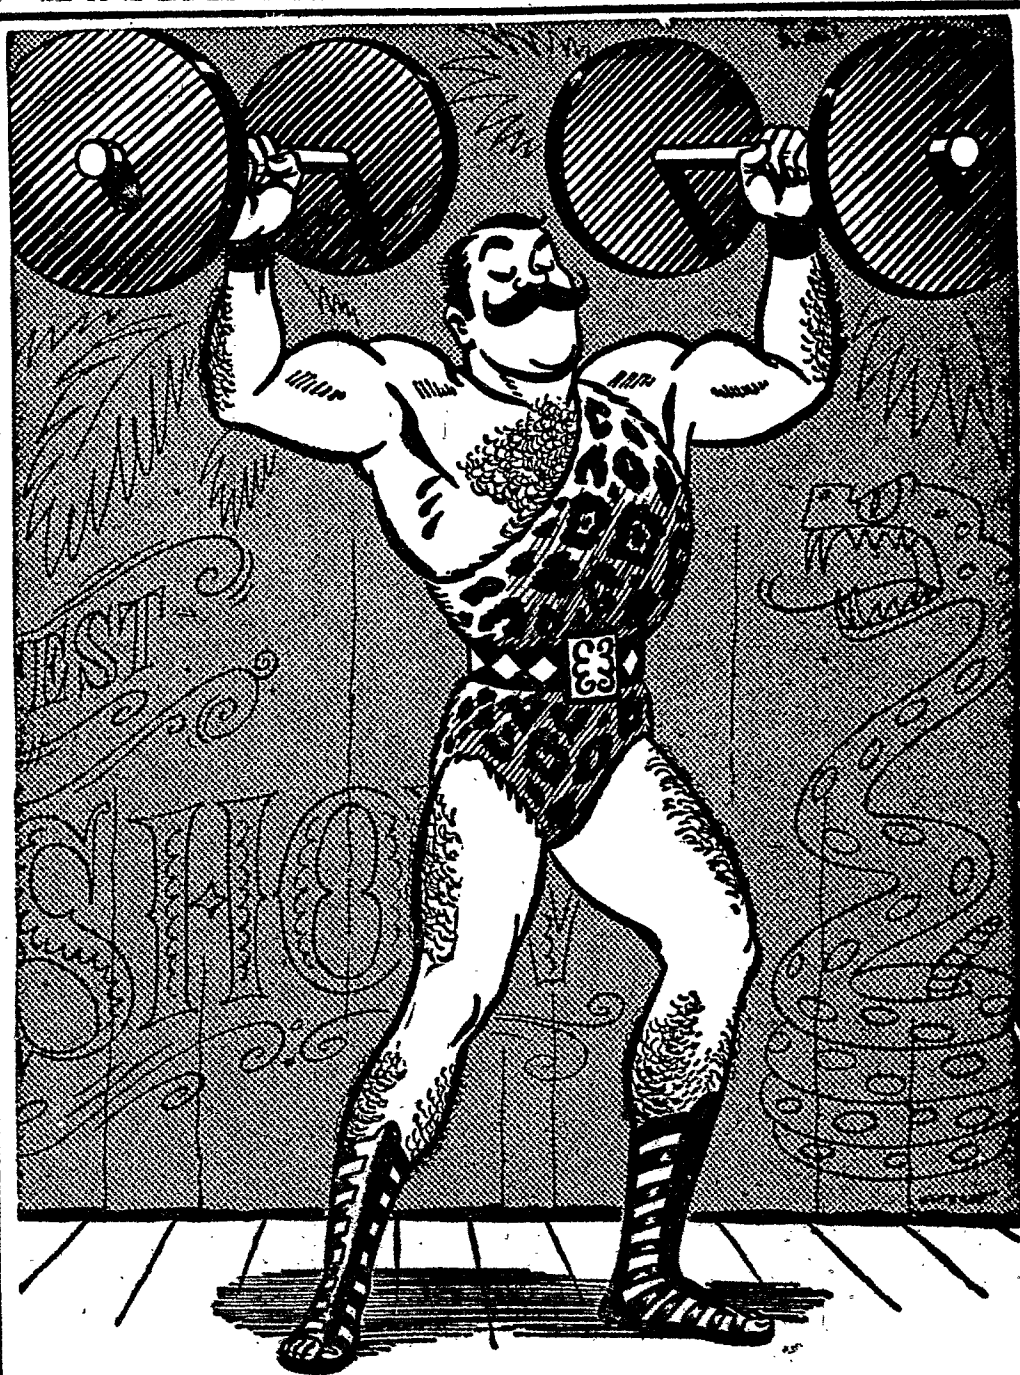

Those who think of Red Skelton
purely in terms of slapstick comedy
have a surprise in store.

For his new role as the country
bumpkin who storms the portals of
Hollywood of the silent-film days
reveals a Skelton of far greater ver-
satility than he has ever shown be-
fore. The slapstick is there to be
sure—and it's a delight—but com-
bined with the fun is a heartwarming
appeal and a touch of pathos that
brings to mind the best work of Char-
lie Chaplin.

As Merton Gill, hero of the story,
Skelton comes to Hollywood full of
lofty ideals and an unswerving as-

piration to give his all in the pur-
suit of high-class drama. Unfortu-
nately, his talents fall far short of
his ambitions, but when he is ad-
vised by his only friend, Phyllis, a
down-to-earth trouper, to work his
way up via comedy parts, he dis-
dains her suggestion. Phyllis, see-
ing him down to his last nickel, ma-
neuvers him into the role of a
slapstick farce and manages to see
him through the film without let-
ting him catch on to the fact that
it's not serious drama. It is only
at the picture's preview that Mer-
ton discovers the fraud and, em-
bittered, is about to return to Tin-
kerton, Kansas. He is eventually
persuaded that laughter and art can
go hand in hand and retains both
Phyllis and comedy stardom.

**MEET THE MIGHTY MOKO!**

He bends iron bars like hairpins. He makes confetti
out of telephone books. He tosses bar-bells around
like paper-weights. He's terrific! He's colossal! He's
the strongest man in the world!

But not even the Mighty Moko—with all that
fabulous strength—can do as much work in a day as
4¢ worth of electricity!

Truly, giants leap to your bidding every time you
flip a switch—willing electric giants ready to take
the burden of hard work from you. Ready to help
you sew and cook and clean—to guard your food—
to make life easier, healthier, more comfortable for
all your family.

And these giants work for the lowest wages in
history! Never has electricity done so many tasks—
for so little cost—as it does for you today.

Football Game For Benefit Of The St. Stanislaus Christmas Tree Fund

For almost thirty years, the first Sunday of December has been set aside for the annual classic of the FLEAS and FLIES. As every one knows the gate receipts all go towards the financing of the Stanislaus Christmas Tree Fund. This year the football game will be played on Sunday, December 7th.

These teams are composed of the little fellows of St. Stanislaus, the St. Stanislaus Day School, and youngster from St. Joseph Academy. They range in weight from 70 pounds to 100.

They are arranged in squads as far as weight and size will permit to allow for keener competition. The compilation of scores since 1932 bears out the closeness with which the squads are selected. This year some 118 kids are trying for permanent births on one of the squads, and every one is working hard to make a squad on one of the most important teams in the county.

Starting away back in the pioneering days of this classic, we have such names as John "Baby Grand" Scaffide, and Harry "Wop" Glover, both became stars on the Tulane Rose Bowl team of 1935; Marchie Schwartz one of the last members of a Notre Dame team coached by Knute Rockne; Fanny Martin, who was a byword for many years as a Stanislaus athlete; The Rockchaw squad of 1947 boasts of several graduates of the Fleas and Flies—Joe David, Ray Benvenutti, Phil Kergosien, Walter Turcote, Rogers Reinike, Adrian Lamkin and Ray Hagman.

For over fifteen years, the Grand Old man of this famous Classic has been Brother Leonard. He has become the center from which all action emanates in this famous game. He is untiring in his interest, and no detail is too small for his attention his patience seems to be inexhaustible.

The success of this worthy enterprise, the Stanislaus Christmas Tree Fund, year after year must go to the day by day work of Brother Leonard and his wonderful co-workers.

The St. Stanislaus Band will lend its help to make the contest worth while. The usual half time caperings will take place as is done in the Varsity games.

Tickets for the game can be obtained from any of the boys, or from Brother Leonard at the school. Let's make this the biggest game ever. More funds will be needed this year than in previous years.

the Air Force at \$336 a month (including flight pay) with excellent chances for further increases as promotions come through.

In addition, you get an extra \$500 for each year of active duty, and will be given a chance to compete for a commission in the Regular Air Force if you are interested in a service career.

This opportunity, which cannot be duplicated anywhere else at any price, equips men for well-paid, responsible positions throughout the aviation industry, at high pay from the beginning. It is open to you if you're single, between 20 and 26½ years old, and have completed at least one-half the requirements for a degree from an accredited college or university (or pass an examination measuring the equivalent). Ask for details to your U. S. Army and U. S. Air Force Recruiting Station located in the G & S I Building, Room 205, Gulfport, Miss., or write to U. S. Army & U. S. Air Force Recruiting Station, Room 202 Magnolia State Building, Hattiesburg, Mississippi.

The U. S. Air Force Offers You \$336 A Month One Year After Graduation

That's what you can earn after completing one year of pilot training and winning your wings in the Air Force.

It is a good deal from the start. While you're an Aviation Cadet you draw \$75 per month, plus food, quarters, uniforms, medical and dental care. After successfully finishing the course, you are commissioned a Second Lieutenant, Air Force Reserve, and assigned to active duty with

Oil Gas Industry Yields
Another Million For
Counties of State

Another million dollars has been poured into the county treasuries of Mississippi's 82 counties by the fast-growing oil and gas industry, according to a report revealed by the Mississippi-Alabama Division of the Mid-Continent Oil and Gas Association this week.

Because of the complicated assessment involved, land owners and royalty owners generally asked the 1946 session to enact some type of "lieu tax" on the royalty held by land owners when they leased their property for gas and oil development.

Once oil or gas was located on property, they said, the tax matter was simplified, because the severance tax applied. Until then, however, when the royalty was known as "non-producing royalty," few owners, dealers in royalties or assessors had any idea how to correctly levy taxes. As a result, in some counties the rates were high, in others very low and in other counties little attention was paid—although there are known non-producing royalty transactions in every county in the state.

As a result, the legislature passed TB 868, which provides for a stamp tax, paid at the time the papers are filed with the chancery clerk, in lieu of an ad valorem assessment. Stamps, provided by the State, are sold through the chancery clerk; and these are affixed to the lease or royalty papers filed with the chancery clerk.

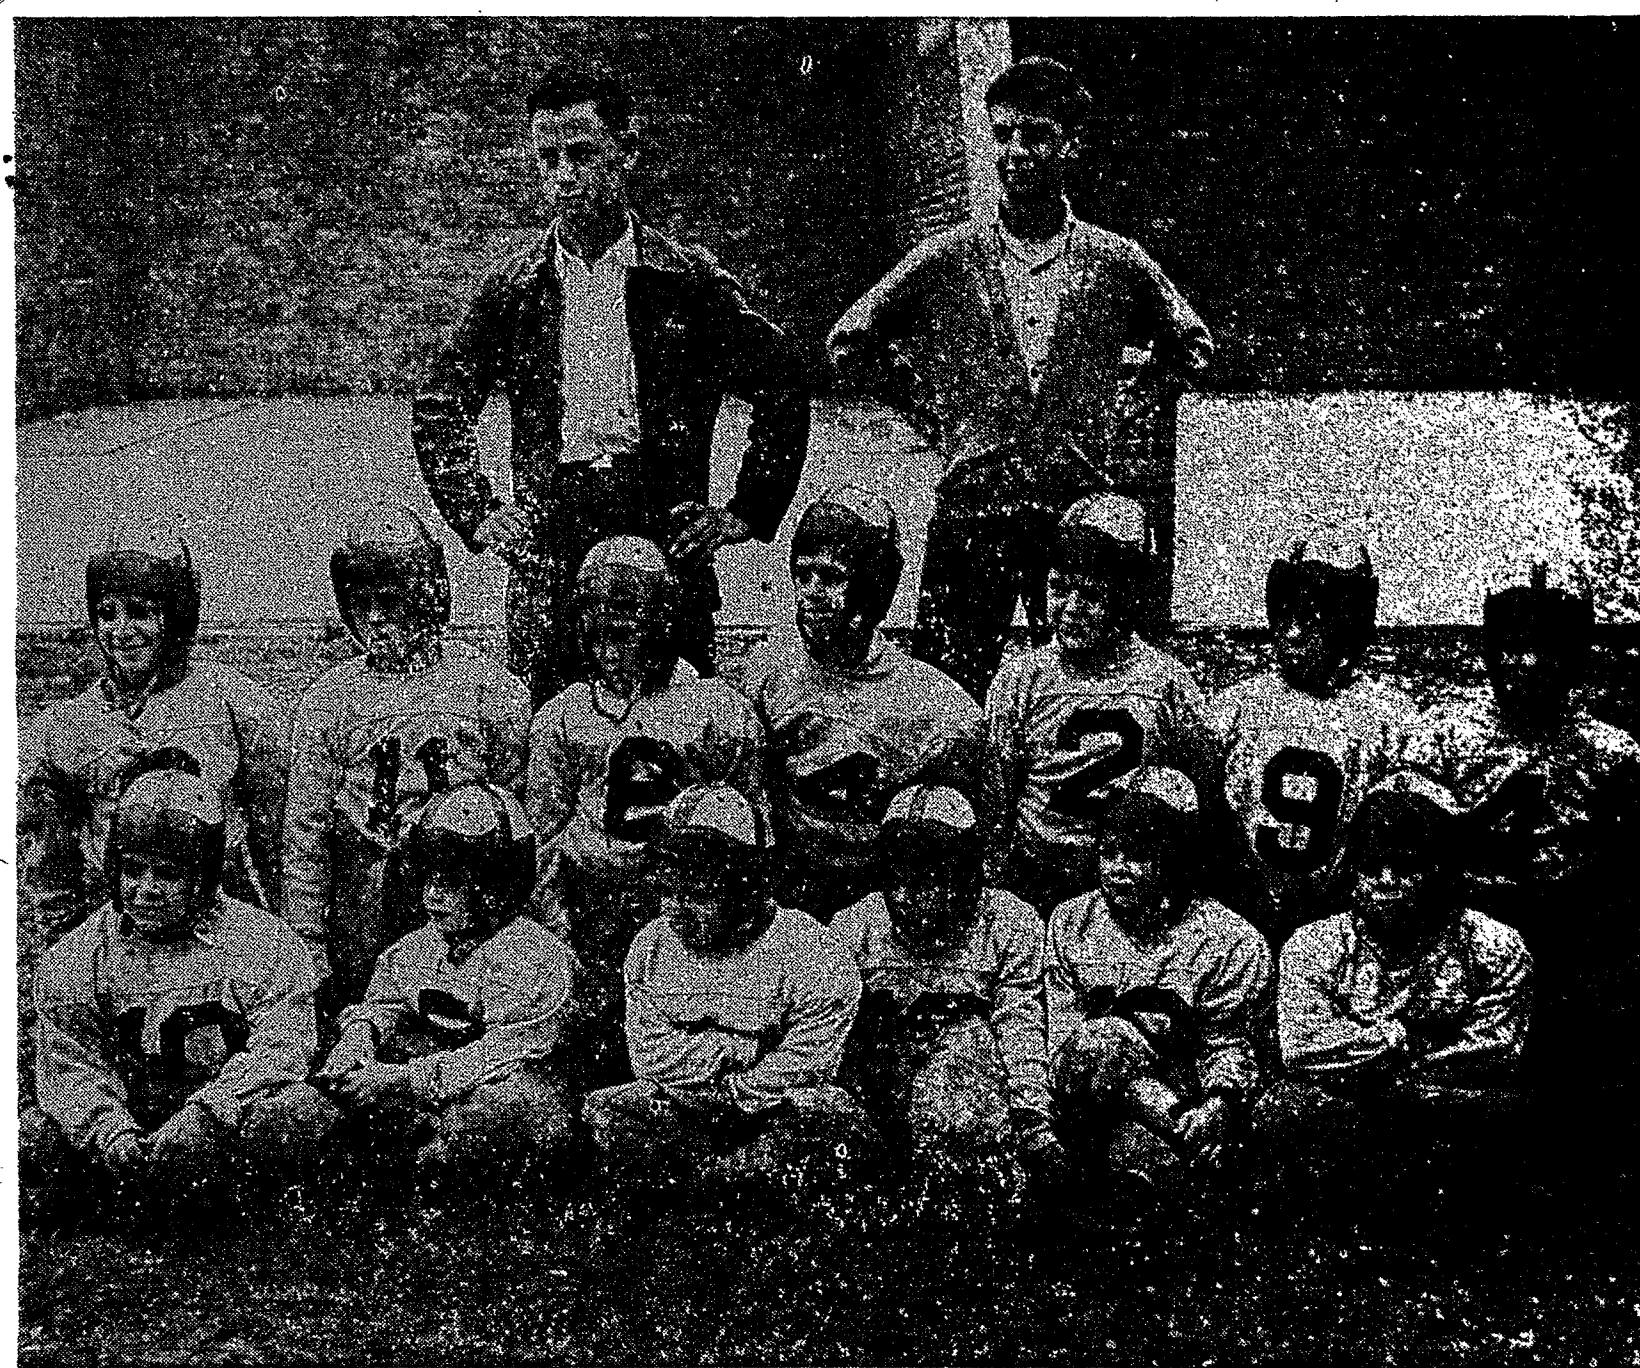

In the first report on progress of the new law, a committee of the Mid-Continent Association said that in the 16 months it has been operating, the "stamp tax" on non-producing minerals has yielded practically an even million dollars; half of this amount has gone to the general county fund in the counties where stamps are sold, the other half to the county

REA Program Brings Electricity To 2,000,000th Consumer

The 2,000,000th consumer will be connected to power lines financed by the Rural Electrification Administration sometime this week, the U. S. Department of Agriculture announced today.

The first consumer received service during the latter part of 1935, and REA-financed power system passed the 1,000,000 consumer mark during August 1942.

To reach the 2,000,000th consumer this week, REA borrowers added one consumer every 21 seconds during every work-week so far this fiscal year.

As the REA construction program

is spread over 16 States, Alaska and the Virgin Islands, it is not possible for REA to single out the 2,000,000th consumer. He may be one of several thousand. The odds are three to one that the 2,000,000th consumer will be a farmer, as approximately 75 per cent of the consumers served by REA borrowers are farms, REA said, and the other 25 per cent comprise stores, schools, churches, small rural industries and rural homes.

When REA was created in 1935, about 750,000 farms had central station electric service, which was a little more than 10 percent of the total number of farms in the country. Now almost 3,500,000 more than 60 percent are served by REA borrowers and commercial utility companies.

With more than 4,000,000 rural establishments, including approximately 2,280,000 farms still awaiting central station service, the rate of REA-financed construction is expected to show a still further gain next year if the materials situation continues to improve during the next few months.

Commenting on the progress of the program to date, REA Administrator Claude R. Wickard said:

Passing of so conspicuous a milestone on the path to our ultimate goal of adequate, low-cost power for every possible farm in this country is a mark of progress for rural America. We commemorate this milestone knowing that there are many others who still want and need electric power for modern living.

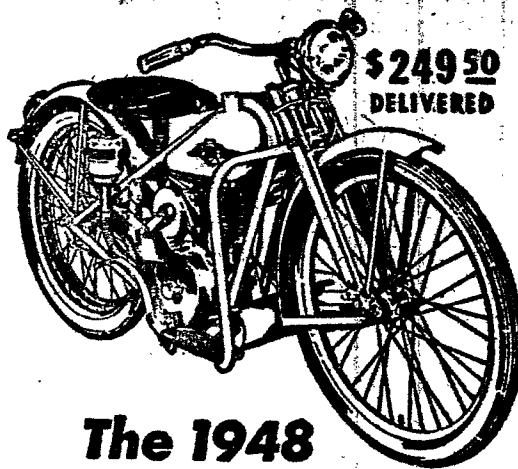

The fact that we have applications for about \$300,000,000 in loans with new applications being received at the rate of 20 million dollars a month speaks for the desire of the remaining unserved farmers for service and the real amount of unfinished work still ahead of us.

"In reaching 2,000,000 consumers, no grants or subsidies have been used. REA does not own or operate

any power lines. We have made loans to more than 1,000 independent local business groups, mostly cooperative. They have built their own facilities with money borrowed from the Government. So far the total payments of all our borrowers have amounted to \$143,372,789."

REA loans to date total \$1,152,507,489 of which \$788,845,218 has been advanced to the borrowers. Almost 95 percent of the money advanced has been used to finance power lines, a little less than 4 percent of generating plants, and about 1 percent for wiring, plumbing and appliance installation loans.

MISSISSIPPI'S oil and gas conservation law was enacted in 1932, fifteen years ago, and seven years before the first oil well was discovered in Yazoo County in 1939.

Although this law has been amended twice since 1932 there have been no changes since 1936, three years prior to the Yazoo discovery. Yet the Mississippi oil and gas industry has grown from the discovery well in 1939 to over 1000 producing oil wells and great gas reserves today.

Despite this progress made by Mississippi's oil and gas industry in prospecting, drilling and producing, our State is today directing its rapidly expanding oil and gas activities under this outmoded 1932 conservation law.

Realizing the urgent need for a sound and modern conservation law that will benefit the State, land owners, all the people of Mississippi, and the oil and gas industry, this Association pledges its support to the 1948 Legislature in the passage of a new and comprehensive conservation act.

To this end the efforts of this Association are directed because what helps the sound development of our oil and gas resources helps Mississippi and all Mississippians.

This is one of a series of informative messages published in the public interest. Your comments or questions are welcomed.

Wheel Alignment and Steering Check Up.

It's easy to spot "Wobbly Wheels" on cars ahead or behind you on the road. But the only way to see if your wheels are "Wobbly" or in line is to bring your car to us for a scientific check up. Wear on spindle bushings and wheel bearings from every day abuse can throw your wheels out of alignment. This condition often causes abnormal tire wear and poor steering.

How long since you've had a wheel alignment and steering check up? OUR EXPERT CAN DO THE JOB QUICKLY.

Our mechanical department is fully equipped with John Bean Alignment Equipment and we are happy to announce that we have in our employ Mr. Martin Dubuisson who has had 12 years experience in wheel alignment work.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 9 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

CARDUI

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Veterans' News

Nearly half of the veterans financing the purchase of homes with the aid of GI loans are buying newly built houses at an average selling price of \$8,200 each, the Veterans Administration reports.

Analysis of GI loan figures for the nation over a four-month period (May through August of this year) shows that over 45 per cent of the loans made were on new construction, and that the remainder were on homes previously occupied, for which the sales price averaged \$6,875.

With a current average of 48,000 veterans monthly using their loan guarantee rights for home purchases, this means that about 22,000 new homes per month are being sold to veterans under the program.

Since the first GI loan was made late in 1944, over 971,000 veterans had received VA-guaranteed home loans as of the end of October. The total value of their home purchases exceeds \$5,610,000,000.

QUESTIONS AND ANSWERS
Q—If I am receiving retirement pay, will I be permitted to get the full amount of subsistence allowance while I am attending school or while I am in job training under the GI Bill?

A—Retirement pay is not considered income from productive labor and not be included in your estimate of earnings filed with Veterans Administration; therefore, it is not a bar to receipt of full subsistence allowance.

Q—Will Veterans Administration increase the \$13.80 I get for my 10 per cent World War II service-connected disability in event I marry?

A—No. Your compensation is based on the degree of disability. No additional compensation is payable for dependents.

Q—I am an ex-Wac with an honorable discharge and contemplating marriage to a non-veteran. Will the marriage cause me to lose any of my rights to benefits under the GI Bill?

A—No.

Q—May I be furnished a wheel-chair by Veterans Administration?

A—VA will furnish you a wheel-chair if you have a service-connected disability requiring the use of a wheel-chair, or if a wheel-chair is required for use at home upon your discharge from a period of hospital treatment or domiciliary care.
